

Name: \_\_\_\_\_

Compare the math problems under each football helmet. Which problem's answer is higher? Award the points (between to the two problems) to the team with the problem with the higher answer. Calculate the final score to determine which team wins.

Example:

Steelers		Ravens
$4 + 3 = 7$	Award (3) Points	$5 + 4 = 9$

Because the problem under "Ravens" has a higher answer than the problem under the "Steelers," 3 points are awarded to the Ravens.

	Which team has the problem with the higher answer?	
Pittsburgh Steelers		Baltimore Ravens
$9 + 2$	Award (3) Points	$5 + 5$
$13 - 7$	Award (6) Points	$14 - 6$
$26 - 18$	Award (3) Points	$28 - 19$
$32 + 19$	Award (3) Points	$28 + 22$
$83 - 44$	Award (2) Points	$67 - 38$
$8 \times 8$	Award (6) Points	$6 \times 9$
$37 + 57$	Award (3) Points	$66 + 29$
$95 - 77$	Award (7) Points	$84 - 69$
$4 \times 9$	Award (2) Points	$6 \times 7$
$92 - 14$	Award (3) Points	$45 + 36$

Final Score: Steelers \_\_\_\_\_ Ravens \_\_\_\_\_
