

Bowling Pin Math

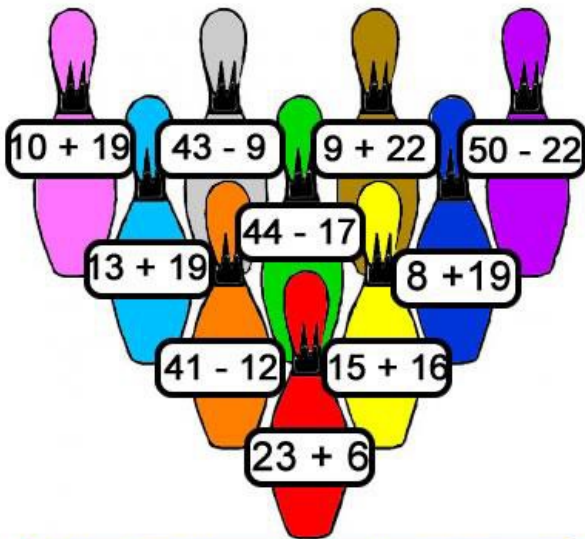

Name _____

Common Core: 2.OA.2, 2.NBT.4, 3.NBT.2

Are the Answers to Equations Greater Than or Less than a Particular Number?

Adding and Subtracting to/from 50

Instructions: Look at the pictures. Fill in the colors in the spaces provided that meet the condition of the statement. For example, if the statement requires you to select all bowling pins that have math problems with answers greater than 20, and the red pin reads “15 + 10” you would color red in the space provided.

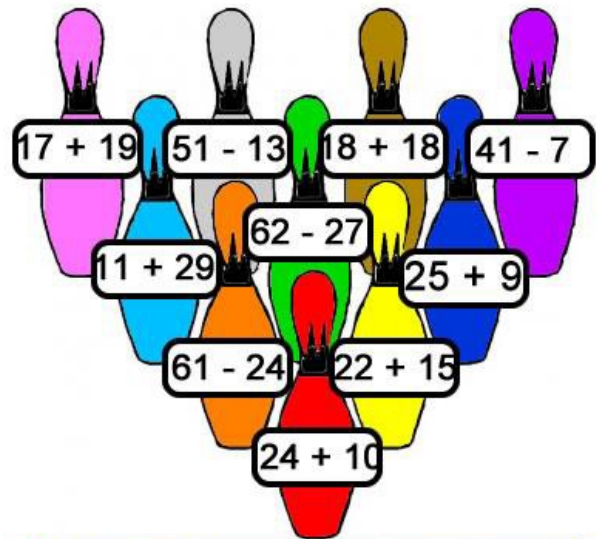

Select ALL pins with equations that equal less than 30.

There are six bowling pins with answers less than 30.

Fill in the colors of the pins with answers less than 30.

--	--	--	--	--	--	--

Select ALL pins with equations that equal more than 36.

There are four bowling pins with answers more than 36

Fill in the colors of the pins with answers more than 36.
