

## Vultures Picture Day

Name \_\_\_\_\_

It's picture day for the two beauties below. The top vulture is a turkey vulture and the bottom is a king vulture. Help them look great for their pictures! You can decide to use your imagination to color them, or, you can color them realistically. The turkey vulture's head and face are totally bare and red, while the king vulture's head and face are multi-colored. The king vulture has white eyes and the turkey vulture has dark eyes. You can use the vultures interactive page to see them in real-life.
