

Unit Prices

Name _____

See the three prices at various "Super Markets" for a dozen or dozens of eggs. Which is the best deal, second-best deal and worst deal?

Hint: Find the price per egg by dividing the price by the number of eggs. For example, in the first option below, divide \$3.59 by 12 and round up. (\$0.30 per eggs)

Super Market Name: Giant Pepper
A. One Dozen Eggs: \$3.60
B. Two Dozen Eggs: \$7.00
C. Three Dozen Eggs: \$10.20

What is the best deal? _____ What is the worst deal? _____
How much do you save per egg by choosing the best deal? _____

Super Market Name: Partial Foods
A. One Dozen Eggs: \$4.85
B. Two Dozen Eggs: \$9.90
C. Three Dozen Eggs: \$13.50

What is the best deal? _____ What is the worst deal? _____
How much do you save per egg by choosing the best deal? _____

Super Market Name: Food Tiger
A. One Dozen Eggs: \$4.10
B. Two Dozen Eggs: \$7.90
C. Three Dozen Eggs: \$12.50

What is the best deal? _____ What is the worst deal? _____
How much do you save per egg by choosing the best deal? _____
