

World Landforms Scavenger Hunt

Name _____

***To be used with the World Landforms interactive map**

1. What is?

a. A strip of land projecting into a body of water _____

b. A group of many islands in a large body of water

c. A long, narrow deep inlet of sea between steep slopes

d. A relatively narrow strip of land with water on both sides that connects two larger land areas _____.

2. The _____, located in southern South America, is one of the only natural passages that connects the Pacific and Atlantic oceans.

3. 84% of _____, the world's largest island, is covered by ice.

4. The _____, the deepest point on Earth, is located nearly 36,000 feet below the sea.

5. One of the world's most dazzling sites, the _____ was formed by the Colorado River. It is 277 miles long and 18 miles across at its widest.

6. In 1914, the _____ Canal was completed. The canal enabled ships to pass from the Atlantic Ocean to the Pacific Ocean through North America, rather than having to sail through the southern tip of South America.
